

LIFE SCIENCE CARES
boston

CORPORATE PARTNERSHIP
& SPONSORSHIP 2025

About Life Science Cares

Life Science Cares activates the financial and human capital of the life sciences industry and partners with nonprofits to disrupt the cycle of poverty and inequality in our communities.

By partnering with local nonprofits, LSC directs financial resources, donated goods, and thousands of volunteer hours to address both immediate and long-term needs for our neighbors living in poverty.

LSC Boston partners with **32** community-based organizations working in three areas of need:

- **Basic needs:** food security, safety, health care, and housing
- **Education:** STEM education, college preparation and success, educational enrichment, and programs that support and inspire students of every age
- **Opportunity:** job creation, job training, mentoring, and resource development

In addition, LSC Boston has launched a new **Health Equity** program to support nonprofits focused on safe homes and vibrant communities, equitable and dignified care, and advocacy and civic wellness.

LSC currently operates in five locations that boast a critical mass of companies working in biotech, pharmaceuticals, medical technology, and research: **Boston, Philadelphia, San Diego, the San Francisco Bay Area, and New York.**

Why Join in with Life Science Cares?

-  **Doing good is good business.** Research shows a well-designed corporate social responsibility effort increases employee engagement and productivity, while reducing employee turnover and the costs associated with turnover. Employees today believe that companies should focus on purpose just as much as profit. They expect community connection and a diverse array of volunteer opportunities year-round.
-  **It's good citizenship.** Poverty, wealth inequality, and the opportunity gap are the societal challenges of our time. Income disparities are so pronounced that America's top 10 percent now average more than nine times as much income as the bottom 90 percent. By not working to address this issue, we are turning our backs on our neighbors to the detriment of our communities.
-  **Collective philanthropy makes a bigger impact.** By pooling funding, LSC can contribute in a bigger way than individual companies could, which provides more substantial and impactful support for our 32 nonprofit partners.

Ways to Get Involved

- Become a **Corporate Partner**
- Participate in LSC's organized **corporate engagement** and **giveback opportunities** year-round
- Sponsor and/or attend our annual **events**, including the Impact Breakfast (April) and Mini Golf for Good (September)
- Encourage your C-Suite to join our **Board of Advisors**
- Host a **Project Onramp intern** (summer)

Our National Impact

- **\$20M+** invested in local nonprofit organizations
- **15,000+** unique volunteers sourced
- **40,000+** volunteer hours donated
- **\$2M+** of donated goods to nonprofits
- **1,000+** interns placed at industry companies

Corporate Partnership

Levels of Corporate Partnership

Companies of all sizes and stages can join the Life Science Cares community. Consider a contribution that demonstrates your commitment to do good while doing well. Corporate Partners will be recognized on LSC's social media channels, in our newsletters, and on our website. A contribution at any level entitles your company to the services of LSC in facilitating employee engagements.

Number of staff	Suggested Donation by Tier			
	Impact	Catalyst	Multiplier	Community
< 100	\$25,000 +	\$15,000 +	\$10,000 +	\$5,000 +
101 - 1000	\$100,000 +	\$50,000 +	\$25,000 +	\$10,000 +
1000 +	\$250,000 +	\$100,000 +	\$50,000 +	\$25,000 +

Corporate Partnership benefits Include:

- LSC thought partnership on what success looks like for your company's philanthropy and engagement
- Planning and execution of employee engagement/give back opportunities, including days/weeks of service, onsite giveback builds, offsite opportunities, etc.
- Invitations to LSC events
- Marketing materials/communications for your employee engagement
- So much more—we want to meet you where you are at and customize your philanthropy with you!

LSC is a 501(c)(3) nonprofit organization. 100% of your contribution is tax-deductible. Partnership contributions are made directly to each LSC site, but partnership can be packaged across sites and with event or program sponsorship options.

2025 LSC Impact Breakfast

April 7, 2025

7:30-9:30am

Omni Seaport Boston Hotel

Join us for our 2025 Impact Breakfast!

We are thrilled to continue the tradition of celebrating our work, partners (both nonprofit and corporate), donors, and volunteers! 2025 will be LSC's 9th year and we have accomplished so much—thanks to your support—and there is still more to do!

We look forward to honoring our Community Changemaker Award winners and Luke Timmerman Impact Award winner, and hearing from inspiring speakers about how your involvement with LSC changes lives.

The Impact Breakfast is not only our biggest fundraiser of the year, but it is also an opportunity to celebrate and highlight the progress our community has made to alleviate the effects of poverty and inequality in Boston.

We look forward to seeing you there!

2025 Mini Golf for Good

September TBD, 2025
Tech Square, Cambridge

Life Science Cares' Mini Golf for Good tournament has become a can't-miss (not so) athletic event in Greater Boston. Rally your colleagues for an afternoon of friendly competition, networking, and good food and drink.

We pop-up three nine-hole mini golf courses in the courtyard at Tech Square, with company teams putting for a variety of trophies. Our highest-attended event, this party attracts 500+ employees of life science companies to enjoy the food trucks, beverages, lawn games, raffle, and crazy costumes of their peers.

Sponsorship opportunities range from \$1,000–25,000 and include opportunities to sponsor holes, food trucks, and lawn games. All sponsorships include tickets for at least one team to participate in the tournament.

Board of Advisors

As a collective impact organization, we are only as strong as the network we engage. LSC Boston's Board of Advisors—all executives committed to our mission and model—ensure we are reaching broad and deep across the life science industry. We encourage Advisors to **advocate** for Life Science Cares, corporate partnership, event sponsorship, volunteerism, and/or recommend nonprofits for grants.

Advisors are asked to help shape our programs and our partnership, and leverage their name, organization **affiliation**, and networks to bring new companies and individual champions to our work. Advisors also commit to make personal annual **contributions** to LSC.

[Check out LSC Boston's current Board of Advisors.](#)

Advisors are invited to participate more deeply in our work by joining a Grant Review Committee, attending site visits and special events or programs with our nonprofit partners, and participating in our Signature Events (including the annual Board of Advisors Reception.) We encourage this engagement and appreciate ideas on other ways Advisors would like to be involved.

[Review the Board of Advisors Roles & Responsibilities.](#)

Board of Advisors Reception 2025 Event TBD

The LSC Board of Advisors Reception is the only annual gathering of all Advisors, some of the most influential leaders in the industry. The evening recognizes and celebrates LSC's progress toward our mission of disrupting the cycle of poverty and inequality in the Greater Boston area.

Sponsorship for this event puts your name and logo in front of some of the most influential decision makers in the life science industry.

Sponsorship is \$10,000 and is limited to one sponsor per category (bank, staffing firm, CRO, etc.) Sponsors receive access for two representatives (and their guests, if desired) to attend the event, as well as the opportunity to review the guest list in advance.

Sponsors will also be recognized in remarks made at the event and on signage throughout the venue.

Project Onramp

An Industry Internship Access Program for Under-resourced Students

The life sciences industry can play a key role in bridging the opportunity gap for promising students. While many companies offer internships, it can be difficult for students without knowledge of these opportunities or connections in our sector to have access to the many available jobs and invaluable learning experiences. Project Onramp is a critical link to these early work experiences for a diverse pool of talented students.

Project Onramp sources paid summer internships in the life sciences industry for undergraduate college students who are under-resourced in the industry. Our goal is to bridge the opportunity gap for these promising young people and provide an "onramp" to a first good job upon graduation.

- **Engage your employees** as volunteer mentors, guest speakers, and more
- **Interact with students** through special events and "field trips"
- **Execute thought leadership** by participating on the Project Onramp Advisory Board to help shape the program's growth

SPONSORSHIP OPPORTUNITIES ARE AVAILABLE. [FIND MORE INFORMATION HERE.](#)

PROJECT ONRAMP

ACTIVATING INDUSTRY COMMITMENT TO EARLY TALENT

186

Students matched with and completed internships in 2024

100%

Students who identify as BIPOC, low-income or first-generation

88

Life science companies hosting interns in 2022

30+

Different internship functions filled across STEM and non-STEM roles

HOW PROJECT ONRAMP WORKS

Post Jobs

Companies submit a job description for a paid summer internship set aside for Project Onramp applicants.

Matching Students

Project Onramp staff works with Student Support Partners to identify 3-5 students with the requisite skills & interest in the role.

Interviews

Companies interview, evaluate and hire a candidate who meets their needs.

Support

Project Onramp provides wrap-around training and support for interns (via Summer Sessions and check-ins) and supervisors (via surveys and outreach.)

HOST AN INTERN

Commit to internship roles for high-performing students by setting aside an established internship or by creating new positions for Onramp to fill.
